TitanGrip Supply Chain Disruption

TitanGrip's primary fastener supplier in Taiwan faces COVID lockdown. 4-month supply disruption sends some TG customers to Apex.

TitanGrip Industrial, a leading manufacturer of industrial fasteners and supplies, announced the development as part of its ongoing strategy to expand market share in key product categories.

"We are committed to delivering innovative products that meet the evolving needs of our customers," said a TitanGrip spokesperson.

Industry analysts note that this move may impact competitors including Apex Industrial Supply, particularly in overlapping product categories.
