Russia-Ukraine War Raw Material Shock

Published: 2022-02-24 | Source: Reuters: Russia-Ukraine war sends commodity prices soaring

Russia invasion of Ukraine (Feb 24). Nickel, aluminum, energy prices spike 20-40%. Steel and aluminum-dependent products see cost pass-through.

Industry analysts estimate that demand for affected product categories decreased by approximately 3% during the event period. Prices rose by approximately 12% as manufacturers passed through cost changes to distributors and end customers. The most affected product categories include fasteners, tools, abrasives.

The event period spans from 2022-02-24 to 2022-06-30.

Industrial supply distributors including Grainger, Fastenal, and MSC Industrial reported varying degrees of impact depending on their product mix and geographic exposure. Companies with diversified supply chains and strong inventory positions were better insulated from the disruption.
