COMPETITIVE CONTEXT

TitanGrip recently ran a 3-week safety promotion at Ace Hardware with an estimated 14% discount. Our syndicated data shows they gained 0.6 share points during the event. This proposal is designed to maintain our leadership position in the safety category at Ace Hardware.

RISKS AND MITIGATION

1. Pull-forward risk: Estimated 20-30% of incremental volume may be pantry loading. Mitigation: 2-week duration limits stockpiling incentive.
2. Cannibalization: Moderate risk of cannibalizing adjacent safety subcategories. Monitored via weekly syndicated data.
3. Margin impact: At 5% discount, per-unit margin decreases from \$11.35 to \$2.25. Volume lift must exceed 19% to be margin-accretive.
